

SYNTHETIC DEMONSTRATION EVIDENCE

Form CSR-1 Registration Summary

This is not a Ministry of Corporate Affairs form, registration certificate, legal record, or compliance opinion. It exists only to demonstrate secure document processing and human-reviewed trust claims in INSIPS.

1. Organization identity

Field	Synthetic value
Registered legal name	Udaan Learning Foundation
Entity type	Section 8 company (demonstration only)
CSR-1 registration number	CSR00018427
Registered city	Pune, Maharashtra
Record status	Synthetic current record

Source statement

Udaan Learning Foundation is a fictional organization created for this software demonstration. The candidate CSR-1 registration number CSR00018427 is deliberately invented and must not be used for any real-world lookup, payment, verification, or compliance decision.

Suggested extraction behavior

A document-processing system may identify the registered legal name and CSR-1 registration number as candidate fields on page 1. These candidates require organization confirmation and independent reviewer approval before any safe summary can become public.

SYNTHETIC DEMONSTRATION EVIDENCE

Supporting Notes and Limitations

2. Program description

The fictional organization operates community learning centers for first-generation students. The program description is product-test copy and does not refer to a real beneficiary, address, school, employee, donor, or legal entity.

3. Referenced but missing evidence

Reference	What this document proves	Required next action
80G	A renewal is mentioned, but no certificate is attached.	Request the current 80G certificate.
12A	No supporting 12A record is included.	Do not create a public 12A claim.
Physical verification	No physical visit or inspection is described.	Do not imply physical verification.

4. Required interpretation

This fixture intentionally contains an ambiguous 80G reference. INSIPS Compass should describe it as a medium-confidence candidate or a missing-evidence item, never as an approved status. A platform reviewer should reject or request changes for any claim that lacks the supporting certificate.

5. Safe-use notice

Do not upload real KYC or compliance material to an unapproved environment. Do not use this sample to impersonate an organization, obtain funds, satisfy a regulator, or make a funding decision. All numbers and statements are fictional.

DEMO ONLY

A reviewer decision in the INSIPS demo describes a software state. It is not legal, tax, regulatory, or professional advice.
